<p>Fueling the Body Practitioners will learn about nutrition and healthy eating. We will focus on the benefits of eating fruits and vegetables and keeping hydrated. They will learn how to introduce reading food labels with kids and how to find information about how healthy a food is on a food label. K7C2-76. Cost \$10. Payment sent to PHMC.</p>	<p>“Tough Kid” Classroom Management Strategies The Tough Kid (series) by Dr. William Jensen supplies ready-to-use, classroom-tested materials to help motivate and manage even the toughest-to-teach students. Practitioners will learn how to implement effective behavior management strategies such as Mystery Motivators, Home Notes, Self-Monitoring Forms, Behavioral Contracts, Tracking Procedures, Unique Reinforcers and Classroom Interventions. K2C2-21. Cost \$10. Payment sent to PHMC.</p>
<p>School-Age Professional Credential Director Communities of Practice This session is designed to help School-Age program directors provide support to those individuals enrolled in the School-Age Professional Credential process. The process will include strategies for assisting candidates complete their portfolio and resource files. K8C2-93. Cost \$10. Payment sent to PHMC.</p>	<p>Nature in the School Yard Outdoors is where a child can become part of the natural world, watching it and wondering about it. Keep it simple, low cost and share the message that nature explorations can and should happen right outside their own back doors. This session will feature hands-on-learning involving adaptations, habitats, cycles, and designs of nature and is well suited for both urban and settings. K2C2-13. Cost \$10. Payment sent to PHMC.</p>
<p>Science All Around You don't have to be a science whiz to teach STEM content to kids or to get kids excited about STEM. Learn to use the STEM process to inspire young minds. Kids are curious and love to learn about the world around them. Learn how after school staff can play an important role in facilitating youth's learning about science. Creative tips for 'sneaking' in science in your daily program. K2C2-13. Cost \$5. (*)Payment sent to MELC.</p>	<p>Nature and Children's Health Time spent outdoors supports many aspects of children's health review research on how exposure to the natural environment can promote increased physical activity, healthy development and overall well being. You don't have to wait for a 'green play' prescription from the doctor. You can start today with your program and families by organizing a Nature club and go outside to explore a wealth of natural adventures right in your own school yard. K2C2 -18 Cost \$10. Payment sent to PHMC</p>
<p>Literacy and the Arts in Afterschool Learn how to build literacy skills in young readers through story telling, reader's theater, skits, and creative word games. Give children an extra boost of confidence and develop reading skills. K2C1-13. Cost \$10. Payment sent to PHMC.</p>	<p>The Teacher's Social Emotional Elevator “Change the results you are getting by reacting differently.” This session will have the participants examine their social emotional elevator and will provide clear, practical tools to energize high performance behaviors for school age professionals. Join us as we explore ways to stay productive create peaceful environments and ignite a clear mind in the face of any situation. K8C3-93. Cost \$5. (*)Payment sent to MELC.</p>
