Presents the

Pennsylvania School-Age Professional Credential Course—Montgomery County

Southeastern PA School Age Child Care Project (SEPA SACC) is proud to announce another offering of the Pennsylvania School-Age Professional Credential to after-school practitioners in the southeastern PA region. The Pennsylvania School-Age Professional Credential is administered by the Pennsylvania Key and is a competency based credential model based on performance. The coursework is one component of the credential process. It is comprised of 120 hours of professional development. Through the 120 hours candidates examine their own work in relation to the PA School-Age Care Competency Statements, gain knowledge and skills to benefit children and receive feedback and support from experienced persons in the school age field.
